

MUHAMMAD SYAHEER DANIEL BIN SULAIMAN

Mobile & Frontend Developer

Masjid Tanah, Melaka

muhammadsyaheerdaniel@gmail.com

[LinkedIn](#)

Profile Summary

Mobile and frontend developer experienced in **Flutter**, **PHP** and **Laravel**. Built and maintained web and mobile systems for government and business clients at DATABOLT SDN BHD. Recently completed a Master's in Mobile Software Development at UTeM, building an AI-powered Android code review app on a serverless **AWS** backend.

Experience

DATABOLT SDN BHD

Aug 2023 – Nov 2025

Frontend Developer (Full-time, then Freelance from Aug 2025)

Feb 2024 – Nov 2025 Melaka

- Migrated a government client's module from a legacy Visual Basic system to a web-based platform, improving performance and usability.
- Built the UI for a land administration system, focused on intuitive design and smooth user experience.
- Maintained and enhanced a school administration system, streamlining workflows for kindergarten operations.
- Kept an internal business system stable through bug fixes and targeted optimizations.
- Assisted in developing a new internal system for a government ministry to improve data tracking and operational processes.
- Conducted UAT sessions with clients, gathering feedback and fixing reported issues before go-live.

Flutter & Front-End Programmer Intern

Aug 2023 – Jan 2024 Melaka

- Contributed to a **Flutter**-based kindergarten administration mobile app, focused on functionality, responsiveness and performance.
- Performed cross-device testing to verify app quality, stability and user experience across devices.
- Built UI for a land administration system's web and mobile apps in Flutter, translating Figma designs into consistent interfaces.

Projects

PocketReview | Flutter, AWS Lambda, API Gateway, DynamoDB, Claude API

- Built an AI-powered code review app for Android in Flutter as my Master's thesis, aimed at Dart and Kotlin developers.
- Set up a serverless AWS backend with Lambda, API Gateway and DynamoDB.
- Evaluated it through System Usability Scale (SUS) testing and subject matter expert interviews.
